13WTOOL-A

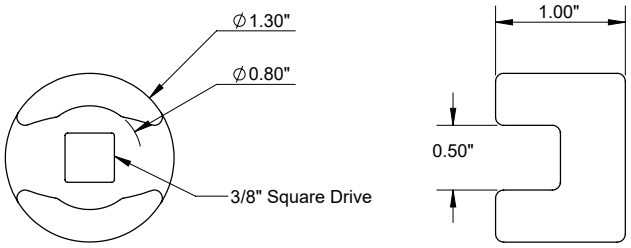
Sanitary Wingnut Tool

The Right Connection®

The 13WTOOL-A is a clamp accessory tool used to torque sanitary clamp wingnuts to avoid over compression of sanitary gaskets in pumps, valves, tubing assemblies, etc.

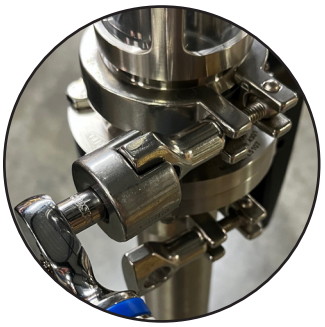
Applications

- Pump assembly and maintenance
  - BC/BP-series centrifugal pump
  - ExD-series high efficiency pump
  - MB100-series microbrew pump
- Valve assembly and maintenance
  - DX60-series dairy tanker valve
  - B5107-series butterfly valve
  - SSV-series single seat valve
  - SPR-series pressure relief valve
  - BV2-series ball valve
  - BV3S/BV4S-series ball valve
  - HYC-series Y-ball check valve
  - HAV-series air relief valve
  - BSV/BSVW-series sample valve
- BSCCQ-series strainer
- HSG-series sight glass
- SJSS-series swivel



Features

- Standard drive size for:
  - Torque wrench assembly and installation
  - Ratchets for disassembly only
  - Impact drills for disassembly only
- Non-slip design for easy use



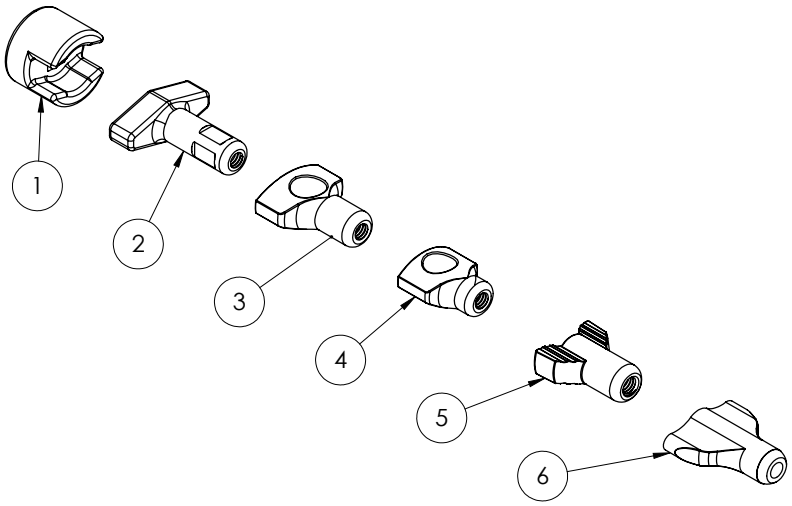
Specification

- Size: 3/8” drive

Material

- 304 stainless steel

Compatible Wingnuts



Item #	Part #	Description
1	13WTOOL-A	sanitary wingnut tool
2	13DWN	Dixon® wingnut
3	13WNX	cross hole wingnut
4	13WNXM	mini cross hole wingnut
5	13WNS	serrated wingnut
6	13WNQ	squeeze clamp wingnut

NOTE: This tool is not limited to the applications or wingnuts listed.
